CS 61A                      Structure and Interpretation of Computer Programs  
Fall 2016

---

MIDTERM 1

**1. (8 points) What is your name?**

Identify yourself by first and last name. For guaranteed attendance credit, use the one from bCourses. Feel free to omit (/make up) a middle name, because I probably don't need that. You can also include your nickname in quotes if you'd like, but that too is kinda optional.

-----

**2. (1 points) What is your email?**

Again, try and use the one from bCourses. Hopefully this is your berkeley.edu email.

-----

**3. (1 points) What is your student ID number?**

If you don't know it, it ought to be on your Cal ID card.

-----

**4. (0 points) Any comments? How are you feeling about 61A right now?**
